Memorandum

Software Update

Products Affected
RT-12

New Software Version
Version 1.2.6

Old Software Version
Version 1.1.6

Release Notes
1. Increased IR code-set mode changing time from previous 3sec to 10sec when press-hold "1" or "2" key on IR remote controller.
2. Added command sets: "get_tone!", "tone_on!", "tone_off!"
3. Added command sets: "coax3!", "coax4!", "opt3!", "opt4!" (extend for future models, such as RC-1590)
4. Added command sets: "bal_xlr!", "pc_usb!", "get_current_speaker!", "speaker_a!", "speaker_b!", "get_pcusb_class!", "pcusb_class_1!", "pcusb_class_2!"
5. Enabled command sets: "get_display1!", "get_display2!", "get_display3!", "get_display4!" for AUX source (for debugging purpose only)
